

A classic look, refined to perfection.

Trust the experts at Country to keep the Romans in shape.

If Roman Blinds are to fit, hang and function properly, there can be no compromises in fabric choice and treatment. Three decades of experience has taught us that only stable fabrics make the grade, and even these are subjected to a rigorous pre-shrinking treatment that stops fabric movement. This is vital, because any movement or shrinkage that occurs once the blinds are made can twist them out of shape, interfering with how they hang and function.

We sew pockets into the back of our Roman Blinds rather than simple sleeves. This may seem a small detail, but it makes all the difference in creating a blind that won't pull apart. It's also kinder to your walls, because our battens can't leave nasty scratches like inferior Romans with aluminium rods fitted to the back can. Details make all the difference. We even stitch the lift rings into the back of our battens, a durable alternative to the cheap plastic fittings that other designs incorporate.

Appreciate the difference some easy cords can make.

If you've ever found yourself frustrated with fiddly cords that demand precise treatment and odd angles in order to raise and lower Roman Blinds, you'll know that standard swivel cord locks simply don't cut it. Country use only heavy-duty cord locks that grip smoothly and consistently and make adjustment of your blinds quick, simple and reliable. What's more, the cords on Roman Blinds by Country are positioned at the back of the blind. This solution is easy to use as well as being far neater than front-hanging cords.

Fabric-wrapped head rails. No cheap cover-ups.

The head rail on Roman Blinds by Country is completely fabric-wrapped, rather than just covered up. Where some see fit to simply attach fabric to the front of the head rail with Velcro, at Country we insist of a full fabric wrap that looks great from every angle.

Hardware we can all be happy with.

If standard silver metal hardware simply doesn't suit your home, Country can help. Rather than asking you to settle for more of the same, we offer hardware in a choice of silver, brass or timber look fittings for your tie-off cleats. Whatever your style or décor, we'll do all we can to help you match it.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Roman Blinds – in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
