

## See the difference experience makes.

### Sheer choice. Because trends are for social media, not curtains.

While it's important to offer what's in vogue right now, at Country Blinds we don't want you to be limited in your choice of Sheer Curtain styles. So we offer S-Wave heading, traditional pinch pleating, the more relaxed pencil pleat or 'gathering' and even formal reverse pinch pleating. Because we can make more than just what's currently popular, you can choose the perfect look for your home and your tastes.

### What we see, what you see.

All sheer fabrics are checked for flaws at our factory over a light bed prior to being made into curtains, so there's no chance of defects showing up when the completed curtains are hung.

We straight-stitch our sheers for the most durable result. Because you can see through sheer curtains the stitch will always be visible, so rather than using a blind hem (which can pull through the fabric), at Country we manufacture using a straight stitch that stands up better to inevitable interaction with people and pets.

We also colour-match our heading tapes, because in some situations, such as with dark coloured sheers, standard clear or white tape can show through. Because we colour-match our header tapes, they become virtually invisible when sewn into the curtains.

### Getting the lead out.

Even though some suppliers sew-in lead weights as standard, we remove them and replace them with a soft bottom hem. This hem carries weights in the corners, sealed into waterproof bags. The result is a straight, soft look and no chance of discolouration from metallic weights when the curtains are washed.

### Sheers with privacy? Yes, Country can do it.

For Sheer Curtains with privacy as part of the package, talk to us about custom linings. We'll be happy to talk you through what's best, be this a lining on its own separate track or perhaps even a roller blind.

### Depend on Country for the light tracks.

The aluminium tracks we use with our Sheer Curtains are much lighter than traditional materials, taking a load off your walls or ceilings. There's a colour range to choose from, or we can have them powder coated in virtually any colour you want. Choose from tracks designed to almost disappear, or bold decorative tracks created to make a statement in your home.

### Delivered pressed, fitted with pride and made right here.

Following manufacture in our factory, all curtains are pressed ready for installation so that they look amazing right away, rather than 'well-travelled'. Should you need further pressing onsite, we'll happily steam them for you in-house.

Curtains by Country are made in our Mount Barker factory by trained seamstresses with vast experience and real pride in what they do. There's no sub-contracting whatsoever; everything we make is manufactured in-house under our own control. Your peace of mind rests on the fact that we take ultimate responsibility for the quality of our products.

## The Country Blinds difference

### Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

### We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

### Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

### Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

## There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Sheer Curtains - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
