

Smooth, precise and durable. Roller Shutters built better by Country.

Roller Shutters by Country. Made right here*. Refined by decades of experience.

It starts with the slats and touches every component that goes into a Roller Shutter created by Country. Experience. Finding out what looks best, works reliably and lasts longest.

At Country we've taken lessons learned through years of experience and customer feedback to refine what we believe is the best Roller Shutter design available anywhere in Australia. Thousands of homeowners agree. We're confident that you will, too.

A great profile with performance right to the core

Precision roll-formed, the slats unique to Country are made from premium aluminium alloy. Inside, they're filled with CFC-free polyurethane that's great for thermal insulation (heat and cold) and even helps reduce noise. The ridge that features on our slats gives them greater strength than more common designs.

A tighter roll, a cleaner finish

The smooth, curved face of slats by Country enables our shutters to roll up tighter and smaller. That means they seal out more dirt and stay cleaner. What's more, the tighter roll fits perfectly into smaller, neater headboxes.

Bearing up better

Roller Shutters by Country have axles that run smoothly and quietly in sealed roller bearings meaning no wear, ever. Inferior blinds often run no bearing at all, resulting in increased noise and premature failure.

Slat slippage, eliminated

Country Roller Shutters can't get caught halfway because we eliminate slat slip through the use of machine-inserted end caps. You'll find rust-prone staples used instead in some inferior shutters. We think these belong in a stationery store...

Durable colour, no flaking or fading.

Our Roller Shutters come in a wide range of colours to complement your home. We use a double coat of colour topped with tough lacquer for a finish that is abrasion-resistant and won't fade or flake.

Operator? Give me some options!

Manual, 12 volt, perhaps voice-controlled? You deserve choice in how you operate your Roller Shutters, so Country let's you take your pick:

- Manual operation makes use of an internal crank mechanism with a round, edgeless cord that won't wear out prematurely like flat 'tapes' can.
- 12-volt, battery-operated Roller Shutters mean you can press a button on a wall-mounted battery pack or synchronise multiple shutters to one remote control. Even during a power failure, your battery will keep you rolling.
- If you'd prefer your Roller Shutters to be fully motorized, Country have you covered from 3-way toggle switching to full Cbus control. Want to go even smarter? We can design a system you can control with your smartphone or synch up with Google Home or Amazon Alexa.

*Country Roller Shutters are manufactured in a dedicated factory based in Murray Bridge, South Australia, with support by a local manufacturer.

The Country Blinds difference

Trusted through time

Three decades in business has earned Country Blinds the trust of home and business owners all over South Australia. Every year, word-of-mouth recommendations from happy Country customers mean our reputation for excellence in products and service just keeps growing.

We make it, we install it.

Country Blinds is a family-owned, factory-direct supplier, manufacturing in our Adelaide Hills factory and installing all over the state with no compromises. That means our own installers take care of every single job. Because we make and install everything ourselves, we stand behind our products and our workmanship.

Value

Real value comes from a business with the ability to create a bespoke product tailored to your own home, perfectly suited to your décor and lifestyle. When it comes to your home, 'off-the-rack' is often just another way of saying 'compromise'. We never compromise on value and there is nothing 'off-the-rack' about our products or quality.

Locally owned and operated

We don't just have showrooms...we have a factory. When you deal with Country you can be confident that every single step, from manufacturing to installation, can be traced back to one place, one name, right here in South Australia. There are no third parties, just first-rate products and service by people who live right here.

There's more!

Thanks for taking the time to understand the many factors that set Country Blinds apart. It's worth noting that we make and install more than Roller Shutters - in fact Country proudly manufactures an enormous range of interior and exterior window furnishings to suit all styles of home.
