BLINDS CURTAINS & SHUTTERS

# PREMIUM, YEAR-ROUND COMFORT IN THE SPACE YOU ALREADY HAVE.

Most Australian homes have an outdoor area – but very few use it to its full potential. Country Blinds innovation can change that, using three decades of experience to transform pergolas, verandahs or almost any outdoor space into alfresco rooms that are a pleasure to use all year round.

Streamlined, track-guided blinds are the answer to creating new spaces for relaxing and entertaining in any weather. You take pride in your home, so we take great care to help you match your new outdoor room to your existing décor. We'll work with you to select a combination of fabrics and fixings to help create the mood you want.

Our track guided blinds have no ropes, pulleys or straps, so they're simple for one person to operate and help make your home more safe and secure. Clever design means they take just seconds to set up the way you'd like them and options to control your blinds electrically - using a remote control or mobile phone - make it even easier to raise or lower your blinds.

Track guided blinds by Country are perfect for windows and any area where sun glare and radiated heat are issues. They also provide a financial benefit by reducing the need for air conditioning and this can dramatically reduce your energy bill.

We make our track guided blinds right here in South Australia, building-in premium quality at every step of the process for a beautiful fit in your home. The benefit for you is peace of mind. There's something special about knowing the company you're buying from makes, installs and stands behind everything they sell.

## CREATED TO FIT YOUR HOME AND LIFESTYLE

**At Country Blinds we are fastidious about details and precision. That's why we cut our fabric to size on computer cutting tables and weld premium fabric for strength using world-leading technology.**

What look are you after? Choose mesh or PVC with the help of a Country Blinds consultant to advise you on the right option for your application.

Concerned about odd-sized spaces or challenging angles? Relax. Country Blinds 30 years' experience means we are accustomed to meeting every challenge with an elegant, streamlined solution. The result is a beautiful space that will add value, space and functionality to your home.

# BEAUTIFUL, DURABLE AWNINGS AND BLINDS FOR EVERY HOME, EVERY BUDGET.

Outdoor Shade Blinds

Clear Cafe Blinds

Wire Glide Blinds

Window Awnings

Folding Arm Awnings

Outdoors and in, Country has you covered.

We create much more than track guided blinds.  
Country Blinds also manufacture and install curtains,  
internal blinds, plantation shutters, rollers shutters  
and more.
