

YOUR HOME, YOUR HAVEN.

Premium looks and
performance for your
outdoor rooms.

A man and a woman are sitting on a light-colored sofa on a modern patio. The man is wearing a yellow shirt and the woman is wearing a green long-sleeved shirt. They are both looking towards the right, smiling slightly. In the background, there is a large glass window or door that reflects the outdoor space. A snake plant is visible behind them. The overall scene is bright and airy, with a green tint overlaying the right side of the image.

HAVEN

BUILD WITH CONFIDENCE BUILD WITH COUNTRY QUALITY.

When you step outside your home to create a special living space, there's no room for compromise.

So stretch out with Haven outdoor blinds by Country. The ultimate in streamlined style with patented features that serve up smooth functionality and durability, too. With more options and genuine innovations, Haven is the benchmark in Australian outdoor blinds.

The clean look of innovation.

Many of Haven's greatest innovations are cleverly hidden from view, making for clean, uncluttered lines as well as providing protection from the dirt and grime that an outdoor blind must weather.

Concealed side splines result in every edge of the material seamlessly joining the track and bottom rail, for maximum view with minimal interruption. No ugly side clips on the bottom rail means no unsightly wear.

A **bottom bar** that conceals the inner mechanism results in not only a clean look so that nothing but the grab handle can be seen, but a clean function too. The components are hidden away from dirt and grit.

THE BEST LOCK ON AN OUTDOOR BLIND, BAR NONE.

Get outdoors and relax. Haven's patented design makes it virtually effortless to operate, and ensures your blinds work seamlessly and look sleek and streamlined, year after year.

Haven's Patented Central Bottom Lock is elegant, intuitive and can even be operated with a nudge of your foot. No more bending down to unlock your blinds!

Soft spring operated or motorised, Haven's soft spring mechanism enables easy operation by one person. Country can also enhance Haven with motorisation and push button, time-scheduled or even voice-activated operation.

What you won't see on Haven outdoor blinds.

- Visible wear is eliminated by the engineered bottom rail design
- Bunching and sagging is never a problem thanks to Haven's spiral side spline
- Haven's stronger, lighter extruded aluminium top tubes reduce the risk of sag
- Bunching of side splines is solved forever by the reducers on Haven's top tube

Haven's top options for every home design.

- Choose large or small extruded aluminium enclosed headbox in modern or contemporary shapes to suit the style of your home
- Extruded aluminium headboxes offer greater strength for wide spans to reduce sag
- Modern square lines of Haven headboxes blend beautifully with the façade of most homes

MOTORISATION. CREATE AN AUTOMATIC HAVEN.

Motorisation of outdoor blinds was initially perhaps more to impress friends and family with the press of a button. However, a continuing surge in the popularity of automating blinds has made them more attainable for more families.

Motorisation today is all about ease of use. Automatically lower your blinds as the sun sets. Lift them in inclement weather if you're not home. The Haven hub system allows you to do this on personalised schedules, or from your phone from anywhere in the world.

Motorisation has moved ahead, too. Now you can ask Siri or Alexa (and other compatible apps) to 'raise the patio blinds' and even the press of a button is redundant.

HAVEN OUTDOOR BLINDS BY COUNTRY.

Your choice for a greater outdoors.

Clean, streamlined and beautiful, Haven Outdoor Blinds offer class-leading looks to complement your home and set the mood for your outdoor rooms.

Haven also incorporates a robust, patented locking mechanism that's easy to use, along with a host of other smart, practical design touches.

**Haven by Country Blinds. Class-leading style.
Unmatched advantages.**

How Haven compares
